# Precision Plate Flatness Gauge

## For the precise measurement of flat honing, lapping, and polishing wheels

In the world of lapping and polishing, higher quality requirements for the flatness of work pieces have led to the design of the precision straight edge. Consistent control of wheel flatness is absolutely necessary for the quality system, and avoids time consuming corrections.

FEATURES

- Three dial gauges with resolution to 0.001mm
- Easy to read 58mm diameter gauge face
- Analog or digital
- Lightweight for ease of use
- Metric or inch
- Adjustable gauge location
- All plate sizes
- Works on single and double sided machines

## SPECIFICATIONS

- Metric or Inch analog gauges
- Digital available upon request
- Gauges require corresponding granite table for calibration
- Granite surface plates available upon request

## YOUR CHALLENGE IS OUR SPECIALTY

Flat Honing, Lapping, and Polishing

Stahli is a worldwide leader in the manufacturing of precision lapping, flat honing, and polishing machines. Our name is synonymous with the highest standards of performance, power, automation, productivity, and efficiency for customers in such diverse industries as automotive, electronics, aerospace, and ceramics. The dynamic design of our ultramodern machine line ensures precision and reliability. Stahli machines are user-friendly and environmentally sound.
